# Prolyl endopeptidase (food grade)

*Cat. No. NATZ-083*

*Lot. No.* (See product label)

## Introduction

| | |
|---|---|
| ***Description*** | Food-grade prolyl endopeptidase is a processing enzyme that specifically hydrolyzes prolyl bonds within proteins, thereby improving food texture, flavor, and digestibility. |

## Product Information

| | |
|---|---|
| ***Form*** | Light yellow to dark brown liquid |
| ***Activity*** | Protease Activity: ≥ 5.0 PPU/g |
| ***Optimum pH*** | 4.5 |
| ***Optimum temperature*** | 40 °C |
