

## Prolyl endopeptidase (food grade)

Cat. No. NATZ-083

Lot. No. (See product label)

### Introduction

#### Description

Food-grade prolyl endopeptidase is a processing enzyme that specifically hydrolyzes prolyl bonds within proteins, thereby improving food texture, flavor, and digestibility.

### Product Information

<b>Form</b>	Light yellow to dark brown liquid
<b>Activity</b>	Protease Activity: $\geq 5.0$ PPU/g
<b>Optimum pH</b>	4.5
<b>Optimum temperature</b>	40 °C
