

Myricetin

Cat. No. EXTZ-742

Lot. No. (See product label)

Introduction

Description

Myricetin is a natural flavonoid compound extracted from Chinese bayberry bark (Myrica rubra bark). It possesses multiple biological activities such as antioxidant, anti-inflammatory and antibacterial properties, and is commonly used in health food, skin care products and food additives. Myricetin derived from natural extracts has extremely low toxicity with no obvious side effects at regular doses.

Product Information

Source	Myrica rubra bark
Form	Yellow needle-like crystals
CAS No.	529-44-2
Molecular Weight	318.24
