Capsaicin

Cat. No. EXTZ-749

Lot. No. (See product label)

Introduction

Description	Capsaicin is the active component in chili peppers and the source of their spiciness. Literature reports indicate that capsaicin is a TRPV1 agonist with analgesic, antioxidant, anti-inflammatory, neuroprotective, and anti-cancer effects. This product is a synthetic capsaicin powder that can be applied in healthcare, food, and daily chemical industries.
