

## Hydrolyzed chicken liver powder

Cat. No. EXTZ-756

Lot. No. (See product label)

### ***Introduction***

### ***Description***

Hydrolyzed Chicken Liver Powder is a functional protein ingredient made from fresh chicken livers through enzymatic hydrolysis. Rich in small molecular peptides, free amino acids, and natural liver nutrients, it delivers natural umami flavor and aroma with excellent palatability. Widely applicable in health supplements, pet food, aquaculture feed, and other products, it offers high cost-effectiveness, natural composition, and convenient transportation.
