

Porcine Collagen Powder

Cat. No. EXTZ-764

Lot. No. (See product label)

Introduction

Description

This product is obtained from pig skin or bone through enzymatic hydrolysis. It is rich in characteristic amino acids such as glycine, proline, and hydroxyproline, which serve as essential building blocks for human tissues including skin, bones, joint cartilage, and tendons. Widely used in health supplements and food applications, it is primarily positioned to supplement essential amino acids, support joint health, and improve skin condition. The product features excellent solubility and stability.
