

## Glyceryl monooleate

*Cat. No.* OPEM-005

*Lot. No.* (See product label)

### ***Introduction***

#### ***Description***

Glyceryl monooleate is a synthetic product. Its molecule has a linear structure and possesses the functions of non-ionic emulsifier, solubilizer and penetration enhancer, as well as amphiphilic properties. It is widely used in pharmaceutical preparations, cosmetic emulsions, and lipid carriers in drug delivery systems.

#### ***Applications***

Used in shortening, margarine fillings, coffee creamer, and cosmetics.

### ***Product Information***

#### ***Appearance***

Light yellow liquid

#### ***CAS No.***

25496-72-4
