

Acai Berry Extract

Cat. No. EXTM-008

Lot. No. (See product label)

Introduction

Description

Acai berries are commonly regarded as a superfood. These dark purple berries are currently recognized as the world's most potent source of antioxidant activity. Acai berries are also an excellent source of various nutrients, such as unsaturated fatty acids, vitamin E, and phytosterols, and provide a complete profile of nearly all essential amino acids. Acai berries extract, derived from freeze-dried or spray-dried pulp and peel to retain anthocyanins, polyphenols, and essential fatty acids. Offers concentrated antioxidant capacity and nutritional support. Commonly incorporated into superfood blends, dietary supplements, functional beverages, and natural cosmetic formulations.
