Caraway Oil

Cat. No. EXTZ-784

Lot. No. (See product label)

Introduction

Description	Caraway oil is a natural essential oil extracted from the caraway plant, a member of the Apiaceae family. It is a pale yellow, transparent liquid with a spicy, sweet, peppery aroma. It is produced using steam distillation, with carvone as its primary component (accounting for 40%–60%), and also contains compounds such as acetaldehyde and furfural. This product helps relieve mental stress and aids digestion.
Applications	Aromatherapy, perfume blending, and the addition of ingredients to cosmetics, household products, and skincare products, etc.
