

## Caraway Oil

Cat. No. EXTZ-784

Lot. No. (See product label)

### Introduction

#### Description

Caraway oil is a natural essential oil extracted from the caraway plant, a member of the Apiaceae family. It is a pale yellow, transparent liquid with a spicy, sweet, peppery aroma. It is produced using steam distillation, with carvone as its primary component (accounting for 40%–60%), and also contains compounds such as acetaldehyde and furfural. This product helps relieve mental stress and aids digestion.

#### Applications

Aromatherapy, perfume blending, and the addition of ingredients to cosmetics, household products, and skincare products, etc.
