Creative Enzymes®

Acidothermus cellulolyticus endo-1,4-β-D-glucanase, recombinant

Cat. No. EXTZ-810

Lot. No. (See product label)

Introduction

Synonyms	Endoglucanase

Product Information

Species	Acidothermus cellulolyticus
Source	Expressed in corn
Form	Liquid
Buffer	Supplied as a suspension in 50 mM sodium acetate pH 5 in 3.2 M ammonium sulfate; 0.02% sodium azide
Unit Definition	One unit equals the amount of enzyme required to turnover 1 μmole MUC per minute at pH 5.0 and 50 °C

Storage and Shipping Information

Storage	2-8°C
