Alnus Japonica Extract 10:1

Cat. No. EXTZ-814

Lot. No. (See product label)

Introduction

Description	Alnus Japonica Extract (10:1) is a concentrated plant extract derived from the bark of Alnus japonica (Japanese alder), a deciduous tree of the Betulaceae family. The extract is rich in diarylheptanoid compounds, flavonoids and tannins, which exhibit significant anti-inflammatory, antioxidant and skin-soothing properties. In cosmetic applications, it provides excellent anti-irritant, soothing and skin-protecting benefits, making it particularly suitable for sensitive and compromised skin care formulations.
