Creative Enzymes®

Brazzein

Cat. No. EXTZ-818

Lot. No. (See product label)

Introduction

Description	Brazzein is a naturally occurring sweet protein extracted from the fruit of Thaumatococcus daniellii, a herbaceous plant native to West Africa. As one of the most potent natural sweeteners known, brazzein is approximately 2,000 times sweeter than sucrose on a weight basis, while containing zero calories. It features a clean, sugar-like taste profile without bitter or metallic aftertaste, excellent pH and thermal stability, and is fully digestible into natural amino acids. Brazzein has obtained FDA GRAS status (SELF-affirmed) and is widely used in food and beverage applications including reduced-sugar products, functional beverages and dietary supplements.

Product Information

Form	White to off-white powder
Purity	98%

Storage and Shipping Information

Storage	Store in cool, dry place; protect from moisture
