Black Ginger Extract

Cat. No. EXTZ-821

Lot. No. (See product label)

Introduction

Description	Black Ginger Extract is derived from the rhizome of Kaempferia parviflora (Thai black ginger), a medicinal plant traditionally used in Southeast Asian medicine. The extract is standardized to contain polymethoxyflavones, particularly 5,7-dimethoxyflavone (DMF) as the key bioactive marker compound. Scientific studies have demonstrated that black ginger extract exhibits potent antioxidant, anti-inflammatory, aphrodisiac, energy-enhancing and anti-aging properties. It is widely used in dietary supplements, functional foods and sports nutrition products for improving physical performance, metabolic health and overall vitality.

Product Information

Form	Brown powder

Storage and Shipping Information

Storage	Store in cool, dry, dark place
