

Recombinant Human TOLLIP Protein

Cat. No. TOLLIP-3465H

Lot. No. (See product label)

Introduction

Description	A stable-isotope-labeled recombinant human TOLLIP protein corresponding to RefSeq NP_061882, supplied as a reference standard for mass spectrometry.
Applications	Mass spectrometry.
Synonyms	IL-1RAcPIP; Toll-interacting protein

Product Information

Species	Human
Molecular Weight	30.3 kDa (predicted)
Composition	¹³ C- and ¹⁵ N-labeled recombinant human TOLLIP protein (NP_061882).
Pathway	Toll-like receptor signaling pathway
Function	TOLLIP is a ubiquitin-binding adaptor protein involved in regulation of inflammatory signaling, interleukin-1 receptor trafficking, and turnover of IL1R-associated kinase.
Grade	Mass spectrometry standard
Notes	RefSeq: NP_061882 Gene ID: 54472 Stable-isotope labeling: ¹³ C and ¹⁵ N

Usage and Packaging

Package	10 µg
