

Propacetamol Hydrochloride API Powder

Cat. No. CEGZ-6071

Lot. No. (See product label)

Introduction

Description

Propacetamol hydrochloride is an /-standard active pharmaceutical ingredient supplied as a white powder or crystalline powder for antipyretic and analgesic applications.

Applications

Listed as an antipyretic analgesic pharmaceutical raw material.

Synonyms

Propacetamol hydrochloride

Product Information

Appearance

White crystalline powder; lists white powder or crystalline powder

Form

Powder

CAS No.

66532-86-3; 66532-85-2 listed in product-name line

Molecular Formula

$C_{14}H_{20}N_2O_3$

Chemical Name

Propacetamol hydrochloride

Purity

Assay: $\geq 98.5\%$

Contaminants

Related substance: $\leq 0.5\%$ Toluene: $\leq 0.089\%$ Benzene: $\leq 0.0002\%$
Dichloromethane: $\leq 0.06\%$ Isomer: $\leq 1.0\%$ Heavy metal: ≤ 20 ppm Residue on ignition: $\leq 0.1\%$

Usage and Packaging

Package

8 kg/tin; 10 kg/tin
