

2-Methylfuran

Cat. No. CEGZ-6095

Lot. No. (See product label)

Introduction

Description

2-Methylfuran is a colorless to pale yellow liquid with an ether-like odor. It may darken from yellow to black when exposed to air or sunlight.

Applications

Used in pharmaceutical and pesticide-related applications.

Product Information

Appearance

Colorless to pale yellow transparent liquid

Form

Liquid

Molecular Formula

C₅H₆O

Chemical Name

2-Methylfuran

Purity

Main content: ≥99%

Impurities

Moisture: ≤0.1%

Density

0.9130 g/cm³

Notes

Flash point: -30 °C HS code: 2932190090

Usage and Packaging

Package

180 kg galvanized iron drums or 20 metric-ton tank containers.
