

Blueberry Collagen Peptide Drink Mix

Cat. No. CEGZ-6099

Lot. No. (See product label)

Introduction

Description

Blueberry Collagen Peptide Drink Mix is a powdered solid beverage containing collagen peptide, sucralose, and powdered blueberry flavoring.

Applications

For preparation of a blueberry-flavored collagen peptide beverage.

Product Information

Form

Solid beverage powder

Composition

Collagen peptide Sucralose Powdered blueberry flavoring

Usage

Use approximately 70 mL of water per 1 g of collagen peptide. The source provides an example in which a 3 g sachet is mixed with approximately 210 mL of water. Using too little water may leave the characteristic fishy taste of collagen peptide.

Usage and Packaging

Package
