Creative Enzymes®

Beta-1,3-Glucan Oligosaccharide, 700-900 Da

Cat. No. CEGZ-6226

Lot. No. (See product label)

Introduction

Description	A low-molecular-weight beta-glucan oligosaccharide produced by biotechnology and characterized by high water solubility and beta-1,3 glycosidic linkages.
Applications	Used in food and cosmetic formulation development.

Product Information

Molecular Weight	700-900 Da
Purity	≥99.0% (HPLC)
Structure	Beta-1,3 glucan oligosaccharide with 100% beta-1,3 glycosidic linkages.
Function	Immune-support; soothing; anti-aging related functionality.
Solubility	High water solubility.
