

Beta-1,3-Glucan Oligosaccharide, 700-900 Da

Cat. No. CEGZ-6226

Lot. No. (See product label)

Introduction

Description

A low-molecular-weight beta-glucan oligosaccharide produced by biotechnology and characterized by high water solubility and beta-1,3 glycosidic linkages.

Applications

Used in food and cosmetic formulation development.

Product Information

Molecular Weight

700-900 Da

Purity

≥99.0% (HPLC)

Structure

Beta-1,3 glucan oligosaccharide with 100% beta-1,3 glycosidic linkages.

Function

Immune-support; soothing; anti-aging related functionality.

Solubility

High water solubility.
