Native Human Cancer Antigen 242

Cat. No. NATE-0955

Lot. No. (See product label)

Introduction

Description	CA-242 is a tumor marker for sialylated Lewis carbohydrates associated with adenocarcinomas and e-selectin mediated metastatic risk. It has been found to be an early detector of Pancreatic Cancer.
Applications	Diagnostic Controls; Calibrators & Standards; Immunoassays; Clinical Chemistry; Testing/Assay Validation; Life Science; ELISA; Blotting; Manufacturing; Tumor Markers
Synonyms	Cancer Antigen 242; CA-242

Product Information

Species	Human
Source	Human Cell Culture
Form	Liquid in PBS, pH 7.4
Activity	> 25 kU/mL

Storage and Shipping Information

Storage	Store at -20°C
Stability	2 years
