Tricreatine Malate Complex

Cat. No. CEGZ-6250

Lot. No. (See product label)

Introduction

Description	Tricreatine malate is a combined creatine-malate material containing three creatine units associated with malic acid.
Applications	Applications include health-product formulations and food-additive applications.

Product Information

Molecular Formula	(C4H9N3O2)3·C4H6O5
Chemical Name	Tricreatine malate
