Tricreatine Citrate Complex

Cat. No. CEGZ-6251

Lot. No. (See product label)

Introduction

Description	Tricreatine citrate is a creatine-citrate complex supplied as a small-molecule formulation raw material.
Applications	Applications include formulations intended to support recovery and energy-related product development.

Product Information

Molecular Formula	C18H35N9O13
Chemical Name	Tricreatine citrate
Molecular Weight	585.523
