Creatine Ethyl Ester Hydrochloride

Cat. No. CEGZ-6252

Lot. No. (See product label)

Introduction

Description	Creatine ethyl ester hydrochloride is an esterified creatine derivative supplied in hydrochloride salt form.
Applications	Suitable for biochemical research and general formulation development involving a creatine ester derivative.

Product Information

CAS No.	15366-32-2
Molecular Formula	C6H14ClN3O2
Chemical Name	Creatine ethyl ester hydrochloride
Molecular Weight	195.64726
