DL-Serine Racemic Amino Acid

Cat. No. CEGZ-6263

Lot. No. (See product label)

Introduction

Description	DL-Serine is the racemic form of serine supplied as a biochemical raw material.
Applications	Applications include use as a biochemical reagent.

Product Information

CAS No.	302-84-1
Molecular Formula	C3H7NO3
Chemical Name	DL-Serine
Molecular Weight	105.0926
Notes	EINECS: 206-130-6.
