

DL-Serine Racemic Amino Acid

Cat. No. CEGZ-6263

Lot. No. (See product label)

Introduction

Description DL-Serine is the racemic form of serine supplied as a biochemical raw material.

Applications Applications include use as a biochemical reagent.

Product Information

CAS No. 302-84-1

Molecular Formula C₃H₇NO₃

Chemical Name DL-Serine

Molecular Weight 105.0926

Notes EINECS: 206-130-6.
