DL-Aspartic Acid Racemic Material

Cat. No. CEGZ-6270

Lot. No. (See product label)

Introduction

Description	DL-aspartic acid is a racemic aspartic acid material supplied for biochemical and formulation applications.
Applications	Applications include amino acid infusion formulations, synthetic drug production, liver- and heart-related pharmaceutical formulations, and cosmetics.
Synonyms	DL-Aminosuccinic acid; DL-Aspartic acid

Product Information

CAS No.	617-45-8
Molecular Formula	C4H7NO4
Chemical Name	DL-Aspartic Acid
Molecular Weight	133.10
Notes	EINECS: 210-513-3.
