

DL-Aspartic Acid Racemic Material

Cat. No. CEGZ-6270

Lot. No. (See product label)

Introduction

Description

DL-aspartic acid is a racemic aspartic acid material supplied for biochemical and formulation applications.

Applications

Applications include amino acid infusion formulations, synthetic drug production, liver- and heart-related pharmaceutical formulations, and cosmetics.

Synonyms

DL-Aminosuccinic acid; DL-Aspartic acid

Product Information

CAS No.

617-45-8

Molecular Formula

C₄H₆NO₄

Chemical Name

DL-Aspartic Acid

Molecular Weight

132.0953

Notes

EINECS: 210-513-3.
