D-Aspartic Acid Chiral Material

Cat. No. CEGZ-6271

Lot. No. (See product label)

Introduction

Description	D-aspartic acid is the D-enantiomer of aspartic acid supplied as a chiral amino acid raw material.
Applications	Applications include synthetic drug production and as a pharmaceutical intermediate or starting raw material.
Synonyms	D-(-)-Aspartic acid

Product Information

CAS No.	1783-96-6
Molecular Formula	C4H7NO4
Chemical Name	D(-)-Aspartic acid
Molecular Weight	133.10
Notes	EINECS: 217-234-6.
