Calcium D-Aspartate Salt

Cat. No. CEGZ-6272

Lot. No. (See product label)

Introduction

Description	Calcium D-aspartate is a calcium salt form of D-aspartic acid supplied as a small-molecule formulation material.
Applications	Suitable for general biochemical research and formulation development involving a calcium D-aspartate material.

Product Information

Molecular Formula	C4H5CaNO4
Chemical Name	Calcium D-Aspartate
Molecular Weight	171.1648
