D-Asparagine Monohydrate Material

Cat. No. CEGZ-6274

Lot. No. (See product label)

Introduction

Description	D-asparagine monohydrate is a hydrated D-asparagine material supplied as a chiral amino acid raw material.
Applications	Suitable for general biochemical research and formulation development involving D-asparagine monohydrate.

Product Information

CAS No.	5794-24-1
Molecular Formula	C4H10N2O4
Chemical Name	D-Asparagine monohydrate
Molecular Weight	150.13
