Sodium D-Aspartate Salt

Cat. No. CEGZ-6275

Lot. No. (See product label)

Introduction

Description	Sodium D-aspartate is a sodium salt form of D-aspartic acid supplied as a small-molecule formulation material.
Applications	Suitable for general biochemical research and formulation development involving a sodium D-aspartate material.

Product Information

Molecular Formula	C4H5NNa2O4
Chemical Name	Sodium D-Aspartic Acid
Molecular Weight	177.06634
