N-Acetyl-L-Cysteine Thiol Derivative

Cat. No. CEGZ-6279

Lot. No. (See product label)

Introduction

Description	N-acetyl-L-cysteine is an acetylated sulfur-containing amino acid derivative supplied as a small-molecule biochemical material.
Synonyms	NAC; Ac-Cys-OH; N-Acetyl-L-cysteine

Product Information

CAS No.	616-91-1
Molecular Formula	C5H9NO3S
Chemical Name	N-Acetyl-L-cysteine
Molecular Weight	163.20
Notes	EINECS: 210-498-3.
