Propionyl-L-Carnitine Hydrochloride

Cat. No. CEGZ-6282

Lot. No. (See product label)

Introduction

Description	Propionyl-L-carnitine hydrochloride is the hydrochloride salt form of propionyl-L-carnitine supplied as a carnitine derivative.
Applications	Applications relate to renal insufficiency and congestive heart failure.
Synonyms	Propionyl-L-carnitine HCl

Product Information

CAS No.	119793-66-7
Molecular Formula	C10H20ClNO4
Chemical Name	Propionyl-L-Carnitine Hydrochloride
Molecular Weight	253.7231
