D-Ribose Pentose Sugar Material

Cat. No. CEGZ-6305

Lot. No. (See product label)

Introduction

Description	D-ribose is a pentose sugar supplied as a biochemical and formulation raw material.
Applications	Applications include use as a pharmaceutical raw material, in health-product formulations, as an intermediate, and as a food additive.
Synonyms	D(-)-Ribose; D-Ribose

Product Information

CAS No.	50-69-1
Molecular Formula	C5H10O5
Chemical Name	D(-)-Ribose
Molecular Weight	150.1299
Notes	EINECS: 200-059-4.
