Taurine Aminosulfonic Acid Material

Cat. No. CEGZ-6308

Lot. No. (See product label)

Introduction

Description	Taurine is an amino sulfonic acid supplied as a biochemical raw material.
Applications	Applications include use as a biochemical reagent.
Synonyms	2-Aminoethanesulfonic acid; Taurine

Product Information

CAS No.	107-35-7
Molecular Formula	C2H7NO3S
Chemical Name	Taurine
Molecular Weight	125.1469
Notes	EINECS: 203-483-8.
