Aceglutamide Acetylated Glutamine Derivative

Cat. No. CEGZ-6309

Lot. No. (See product label)

Introduction

Description	Aceglutamide is an acetylated glutamine derivative supplied as a biochemical small-molecule material.
Applications	Applications include use as a biochemical reagent.
Synonyms	N-Acetyl-L-glutamine; Aceglutamide

Product Information

CAS No.	2490-97-3
Molecular Formula	C7H12N2O4
Chemical Name	Aceglutamide
Molecular Weight	188.18
Notes	EINECS: 219-647-7.
