N-Acetyl-L-Tyrosine Amino Acid Derivative

Cat. No. CEGZ-6310

Lot. No. (See product label)

Introduction

Description	N-acetyl-L-tyrosine is an acetylated tyrosine derivative supplied as an amino acid-based raw material.
Applications	Applications include the pharmaceutical industry.
Synonyms	N-Acetyl-L-tyrosine; Acetyltyrosine

Product Information

CAS No.	537-55-3
Molecular Formula	C11H13NO4
Chemical Name	N-acetyl-L-tyrosine
Molecular Weight	223.22
Notes	EINECS: 208-671-3.
