

N-Acetyl-L-Tyrosine Amino Acid Derivative

Cat. No. CEGZ-6310

Lot. No. (See product label)

Introduction

Description

N-acetyl-L-tyrosine is an acetylated tyrosine derivative supplied as an amino acid-based raw material.

Applications

Applications include the pharmaceutical industry.

Synonyms

N-Acetyl-L-tyrosine; Acetyltyrosine

Product Information

CAS No.

537-55-3

Molecular Formula

C₁₁H₁₂NO₄

Chemical Name

N-acetyl-L-tyrosine

Molecular Weight

222.2178

Notes

EINECS: 208-671-3.
