N-Acetyl-DL-Leucine Racemic Derivative

Cat. No. CEGZ-6312

Lot. No. (See product label)

Introduction

Description	N-acetyl-DL-leucine is an acetylated racemic leucine derivative supplied as an amino acid-based small molecule.
Synonyms	N-Acetyl-DL-leucine

Product Information

CAS No.	99-15-0
Molecular Formula	C8H15NO3
Chemical Name	N-acetyl-DL-leucine
Molecular Weight	173.21
Notes	EINECS: 202-734-9.
