N-Acetyl-L-Methionine Amino Acid Derivative

Cat. No. CEGZ-6313

Lot. No. (See product label)

Introduction

Description	N-acetyl-L-methionine is an acetylated sulfur-containing amino acid derivative supplied as a small-molecule raw material.
Synonyms	N-Acetyl-L-methionine; Acetylmethionine

Product Information

CAS No.	65-82-7
Molecular Formula	C7H13NO3S
Chemical Name	N-Acetylmethionine
Molecular Weight	191.25
Notes	EINECS: 200-617-7.
