Creative Enzymes®

Erythritol Sugar Alcohol Ingredient

Cat. No. CEGZ-6321

Lot. No. (See product label)

Introduction

Description	Erythritol is a naturally occurring sugar alcohol that can also be produced by fermentation and is used as a sweetening ingredient in formulated products.
Applications	Suitable for confectionery, glycerol-related formulations, baked foods, beverages, and other food formulations, and may be blended with other sweeteners to adjust taste.

Product Information

Function	Provides sweetness with good thermal processing stability and can be combined with other sweeteners to modify taste.

Usage and Packaging

Package	25 kg woven bag; 25 kg paper-plastic composite bag; customizable packaging.
