Anionic Dye-Fixing Leather Auxiliary

Cat. No. CEGZ-6342

Lot. No. (See product label)

Introduction

Description	A strongly anionic chromium-containing complex supplied as a colorless to slightly reddish, slightly viscous liquid for leather dye fixation.
Applications	Suitable for use after dye fixation in a wide range of leather types.

Product Information

Appearance	Colorless or slightly reddish, slightly viscous liquid.
Form	Liquid
Composition	Anionic chromium-containing complex.
Quality	Active matter: ≥50%. pH (10% solution): 3.5 ± 1. Charge: anionic.
Usage	Dilute tenfold with water and add to the drum. Recommended dosage: 0.5-1%.

Usage and Packaging

Package	50 kg plastic drum.

Storage and Shipping Information

Storage	Store in a cool, dry place. Shelf life: 6 months.
Stability	Stable to acids and electrolytes.
Shipping Conditions	Non-hazardous; may be transported as general cargo.
