Macromolecular Synthetic Oil Fatliquor

Cat. No. CEGZ-6357

Lot. No. (See product label)

Introduction

Description	A sulfited macromolecular synthetic-oil fatliquor designed for high penetration, uniform uptake, and a very soft, full leather handle.
Applications	Suitable for many soft leather types and automotive seat leather.

Product Information

Appearance	Light yellow oily liquid at 20°C.
Form	Liquid
Composition	Sulfited macromolecular synthetic oil.
Quality	Oil content: 55%. pH (10% solution): 7.5-8.5. APEO: none. Short-chain chlorinated paraffin: none.
Usage	May be blended with anionic fatliquors or used alone. Emulsify with 30-50 times water. Reference dosage: 4-8%.

Usage and Packaging

Package	20 kg plastic drum.

Storage and Shipping Information

Storage	Store in a cool, dry place. Shelf life: 6 months.
Stability	Provides resistance to electrolytes and heavy metals.
Shipping Conditions	Non-hazardous; may be transported as general cargo.
