

## Menadione Sodium Bisulfite Feed Additive

Cat. No. CEGZ-6382

Lot. No. (See product label)

### Introduction

**Description** A water-soluble vitamin K3 derivative supplied as menadione sodium bisulfite for feed formulation.

**Applications** Used as a vitamin K3 source in feed formulations.

### Product Information

**Appearance** White crystalline powder.

**Form** Powder

**CAS No.** 130-37-0

**Composition** Menadione sodium bisulfite (MSB).

**Melting Point** 121-124°C

**Solubility** Readily soluble in water.

**Quality** MSB 99: menadione content  $\geq 51.5\%$ . MSB 98: menadione content  $\geq 51.05\%$ . MSB 96: menadione content  $\geq 50.0\%$ . MSB 95: menadione content  $\geq 33.9\%$ .

**Usage** Recommended addition: 3-12 g per metric ton of feed.

### Storage and Shipping Information

**Shipping Conditions** Non-hazardous; may be transported as general cargo.
