Creative Enzymes®

Vitamin K1 with Controlled Cis-Isomer Content

Cat. No. CEGZ-6463

Lot. No. (See product label)

Introduction

Description	Vitamin K1 with Controlled Cis-Isomer Content is a clear yellow-to-orange viscous liquid with an assay of 97.0–103.0% and a cis-isomer content of 12–14%.
Applications	Pharmaceutical-intermediate development Analytical and quality-control studies

Product Information

Appearance	Clear yellow to orange viscous liquid
Form	Viscous liquid
Molecular Weight	450.71
Purity	Assay: 97.0–103.0% Cis-isomer content: 12–14%
Quality	Infrared spectrum corresponds to the reference standard. Conforms to applicable compendial requirements.
Grade	Pharmaceutical-intermediate grade
