High-Purity Epinephrine Crystalline Powder

Cat. No. CEGZ-6464

Lot. No. (See product label)

Introduction

Description	High-Purity Epinephrine Crystalline Powder is a white to off-white material with a purity of at least 99.5% and tightly controlled related substances.
Applications	Pharmaceutical-intermediate development Analytical reference and quality-control studies

Product Information

Appearance	White to off-white crystalline powder
Form	Crystalline powder
Molecular Weight	183.21
Purity	≥99.5%
Impurities	Total impurities: ≤0.5% Largest known single impurity: ≤0.2% Any unknown single impurity: ≤0.10%
Quality	Conforms to applicable compendial requirements.
Grade	Pharmaceutical-intermediate grade
