

High-Purity L-Ergothioneine Antioxidant

Cat. No. CEGZ-6475

Lot. No. (See product label)

Introduction

Description

High-Purity L-Ergothioneine Antioxidant is a fermentation-derived crystalline material with HPLC purity of at least 99.5% and an assay of at least 99%.

Applications

Oxidative-stress skincare Youthful-appearance formulations Brightening products
After-sun soothing care

Product Information

Source

Fermentation-derived

Appearance

White to off-white crystalline solid or powder

Form

Crystalline solid or powder

CAS No.

497-30-3

Purity

HPLC purity: $\geq 99.5\%$ Assay: $\geq 99\%$

Function

Antioxidant and skin-conditioning support

Grade

Cosmetic formulation grade
