Nutritional Chondroitin Sulfate Oligosaccharide

Cat. No. CEGZ-6478

Lot. No. (See product label)

Introduction

Description	Nutritional Chondroitin Sulfate Oligosaccharide is an enzymatically hydrolyzed pale-yellow to yellow powder with an average molecular weight no greater than 1 kDa and an assay of at least 90%.
Applications	Joint-health nutrition Cartilage-metabolism support Cartilage-nutrition formulations Bone-health products Dietary supplements

Product Information

Appearance	Pale-yellow to yellow powder
Form	Powder
CAS No.	9082-07-9
Molecular Weight	Average molecular weight: ≤1 kDa
Purity	Assay: ≥90%
Function	Joint, cartilage, and bone nutrition support
Grade	Nutritional formulation grade
