High-Purity Retinyl Propionate

Cat. No. CEGZ-6480

Lot. No. (See product label)

Introduction

Description	High-Purity Retinyl Propionate is a defined retinoid ester supplied at 99% purity for laboratory investigations.
Applications	Retinoid chemistry research Cosmetic ingredient studies Structure confirmation and analytical method development

Product Information

CAS No.	7069-42-3
Molecular Formula	$C_{23}H_{34}O_2$
Chemical Name	Retinyl propionate
Molecular Weight	342.522
Purity	99%
Structure	Retinoid ester
Function	Retinoid ester research material
Grade	Research grade
Usage	For laboratory research and formulation development.
